NEWS FROM EAST SIDE CITIES.

MUCH INTEREST IN SCHOOL ELECTION.

Consolidation of Three Districts Makes It Necessary to Choose a New Board.

Politicians are taking an interest in the coming school election, which will be held in East St. Louis on Saturday, May 25. A president and twelve members of the East St. Louis School Board are to be elected on that day. It is expected that there will be but one ticket, and that the fight, if there will be any, will be in getting the nomination. The officers are all honorary. The selections of candidates will probably be made next week.

The recent consolidation of the Illinois City and the Island districts with the Central School District of East St. Louis has made the election of a new School Board necessary, although only a few weeks ago new school boards were elected in all of the three districts.

It is generally conceded that A. L. Keckler, the president of the Central District, and who is responsible for the many improvements in the East St. Louis schools within the last few years, will be nominated for president of the combined district. It is also considered as quite probable that the six present members of the Central School District Board of Education will be placed on the ticket.

Allen of Butler, Mo.; Judge J. T. Green of De Soto, Mo.; and M. F. Wells of St. Louis, Mo., met and organized by electing J. D. Allen chairman and M. F. Wells secretary. They re-elected H. H. Instead of—

buying biscuit, crackers and wafers in a paper bag, or a piece of paper, you should get them in the In-er-seal Patent Package.

Instead of having them handled over and over again, no one touches them from the time they leave the oven until they reach your table.

Instead of keeping them in a cracker jar to get stale and musty you keep them in the package, and the package keeps them fresh.

Instead of telling the grocer to send you anything he has, just say you want the kind that come in the In-er-seal Patent Package.

When you order Soda, Graham, Long Branch, Milk and Oatmeal Biscuit, Vanilla Wafers, Ginger Snaps and Saratoga Flakes, insist on getting those which come in the In-er-seal Patent Package. Don't take a substitute. Look for the In-er-seal trade mark design at the end of the box.

TELEPHONE POLE ANNOYS HER.
Alton Woman Tries for Two Weeks to Remove It.

For the last two weeks Mrs. Mary Hastings of No. 1014 East Second street, Alton, Ill., has been trying to remove a telephone pole of the Central Telephone Company from in front of her premises.

A fortnight ago the Central Union Telephone Company set several new poles, one being placed in front of Mrs. Hastings' house. Mrs. Hastings entered her objections when workmen started to locate the pole before her home and notified them that she would not allow the pole to remain there if they did place it.

The pole was set up, and since that time she has spent many hours in an attempt to remove it. She has made several attempts to chop it down, but the pole is too pole for her, and has resisted all her efforts. Friday she attempted to dig the pole up, but after burrowing for several feet without finding its bottom she gave up the task.

She is still determined that the pole shall not remain in front of her house and has expressed her intention to keep on trying until she succeeds in removing it.
